ACDelco Parts

1993 or older vehicle, more than likely R-12 is the refrigerant being used and mineral oil is the lubricant. If the system is 1995 or newer, R-134a and PAG will be the factory fill. In 1994, the transition was in full swing from R-12 to R-134a so there were both R-12 and R-134a vehicles being produced. If the vehicle being serviced has

FCSD Chemicals and Lubricants

Automotive lubricants are professional-strength products such as oils for reducing engine wear and chemical treatments for optimizing fuel systems. Engine and motor oils lubricate moving engine parts to reduce friction, protect against corrosion, and prevent heat buildup that can damage engines.
