Jean Baudrillard S Simulacra And Simulation Simulacra and Simulation is a 1981 philosophical treatise by the sociologist Jean Baudrillard, in which the author seeks to examine the relationships between reality, symbols, and society, in particular the significations and symbolism of culture and media involved in constructing an understanding of shared existence. Simulacra are copies that depict things that either had no original, or that no longer have an original. Simulation is the imitation of the operation of a real-world process or sys

Simulacra and Simulation - Wikipedia

To clarify his point, he argues that there are three "orders of simulacra": 1) in the first order of simulacra, which he associates with the pre-modern period, the image is a clear counterfeit of the real; the image is recognized as just an illusion, a place marker for the real; 2) in the second order of simulacra, which Baudrillard associates with the industrial revolution of the nineteenth century, the distinctions between the image and the representation begin to break down because of ...
