Language attitudes are evaluative reactions to different language varieties. They reflect, at least in part, two sequential cognitive processes: social categorization and stereotyping. First, listeners use linguistic cues (e.g., accent) to infer speakers' social group membership(s). Second, based on that categorization, they attribute to speakers stereotypic traits associated with those ...

Language Status Print. ... There are many countries where an international language or the language of a colonial power is used for day-to-day operations of the government, but national (or provincial) identity is linked to a different language. On the other hand, when a language is identified as a language of identity, the reverse is true. ...

Language Status | Ethnologue

Defining Power and Status. Expert consensus is clear: Power is asymmetrical control over resources, and status is social prestige (2, 3).Inequality is not just about power (resources) but also about status (respect) (.).Their empirical independence appears in several findings: Power per se makes people less just, but status (especially without power) makes people more just ().

English Language - Language and Power, Theorists Flashcards

It is because the strong relationship between power and language usage can be much more found in Korean and English. As far as the power of authority figures is concerned, "Milgram's experiment of Obedience" also demonstrates us the influence of hierarchical power.

How Language is connected to Power? - Blogger

Status and Power in Verbal Interaction is a sociolinguistic study of conversation in a social context. Using an ethnographic methodology and a network analysis of the social roles and relationships in a particular language community, the book explores how speakers negotiate status, relationship, and ultimately contest power through discourse.

Status and Power in Verbal Interaction: A study of ...

Language is important both because of what it communicates and how it does it. The impact and power of language are really paradoxical in how language can influence our behavior. This power is so strong that it can be demonstrated how language can actually influence the way we think.

The Power of Language: How It Creates Your Reality and How ...

Research in the field of linguistics has shown that there is a direct relationship between the amount of status, power or prestige a person commands and that person's range of vocabulary. In other words, the higher up the social or management ladder a person is, the better able he is to communicate in words and phrases.
