PROC MI: Syntax :: SAS/STAT(R) 9.3 User's Guide

OUT=SAS-data-set. creates an output SAS data set containing imputation results. The data set includes an index variable, `_Imputation_`, to identify the imputation number. For each imputation, the data set contains all variables in the input data set with missing values being replaced by the imputed values.

SAS Content Server SAS Content Server preventing file types By default, any file type can be uploaded to SAS Content Server. Starting with SAS 9.4M2, you can now prevent certain file extensions and MIME types from being uploaded to the SAS Content Server via WebDAV. This offers an additional layer of security by preventing potentially malicious files from being made available to a wider ...
