Nagios Core 4 Pnp4nagios About

Nagios Core does not have its own performance data engine built in to process this performance data, instead it provides functionality to pass this performance data to an external program that can store that data for later analysis. PNP4Nagios is one such external program. PNP4Nagios provides the following functionality:

Nagios Core - Performance Graphs Using PNP4Nagios

Nagios Core - Using Grafana With PNP4Nagios This documentation explains how to install and configure Grafana to generate performance graphs with an existing PNP4Nagios solution. This guide relies on having installed and configured PNP4Nagios using the following documentation: Nagios Core - Performance Graphs Using PNP4Nagios

Nagios Core - Using Grafana With PNP4Nagios

PNP4Nagios Broker Module npcdmod.o is not compatible with Nagios Core 4.x
PNP4Nagios Documentation In the future the domain doc.pnp4nagios.org will be the central documentation platform for PNP. The documentation of PNP 0.4.x is already transferred from www.pnp4nagios.org.

start [PNP4Nagios Docs]

I have Nagios up and running with Nagiosgraph running alongside it (which was a nightmare to install but it is now working). I get various gaps in the graphs which so far I have been unable to fix. I see a lot of people are now recommending PNP4Nagios instead - is this package better than NagiosGraph? Does it work with Nagios Core 4.x?

Nagios 4. En esta ocasión vamos a ver como instalar todo el pack imprescindible en Centos 7 (Redhat 7), Nagios Core 4 + Check_mk + PNP4Nagios + Nagvis.

Instalación de Nagios Core 4 + PNP4Nagios + Check_mk ...

In large nagios installations, your average check latency may increase to a non-acceptable high value. This means that Nagios should do a check at time x but actually does it y seconds later.. If you tell the Nagios core that you want to process the performance data after every single check this is doing well for a certain amount of checks but above this limit you will run into latency problems.
