This journal facilitates the research and wishes to publish papers as long as they are technically correct, scientifically motivated. The journal also encourages the submission of useful reports of negative results.

Asian Journal of Soil Science and Plant Nutrition

The plants hold the soil together with their roots. In such a way, the soil is able to remain in one place, but in doing so, it continues to benefit the plant, as it provides complete nutrition, which can be taken up by the roots. We, in turn, can infer that soil provides the plant with a base and then holds the plant in position.
