PREPARATION

The Systems Engineering Plan (SEP) is a living document that details the execution, management, and control of the technical aspects of an acquisition program from conception to disposal. The SEP outlines how the systems engineering process is applied and tailored to meet objectives for each acquisition phase.

Systems Engineering Plan (SEP) - AcqNotes

Systems Engineering Plan (SEP) The SEP is used as a management tool to guide the program's Systems Engineering (SE) activities by providing a documented technical approach for the program. The SEP includes key technical risks, processes, resources, metrics, and completed and scheduled SE activities.
